

Humboldt Friends of Geology Meeting:

MEETING: Tuesday, August 26, 2008
WHARFINGER BUILDING on the Eureka waterfront
(at the small boat basin – same location as the previous meetings)
5:30 to 8:30 P.M.

We are pleased to announce another meeting of the Humboldt Friends of Geology (i.e., Humboldt F.O.G.). We invite you to come gather, socialize, and hear an enlightening talk on a topic we have all been thinking about.

Thanks to the generosity of continued corporate sponsorship, this meeting is free of charge.

Agenda:

5:30: Social hour

6:30: Announcements, happenings, and speaker introduction (Gary and Melissa).

6:45: Featured speaker, followed by questions and group discussion.

7:30: Wrap up discussion and resume social hour.

8:30: Adjourn.

Featured speaker:

Bob McPherson
CR/HSU

Where is the Farallon Plate?

Bob will discuss tomography and how it is being used to image the deep crust
