

### **CAPITAL CONSTRUCTION**

The President/Superintendent delegates to the Vice President, Chief Business Officer, the reporting of the five-year construction plan in accordance with this Administrative Procedure.

The Vice President, Chief Business Officer will annually report to the Board and to the State Chancellor's Office a five-year construction plan. The Program will consist of the plans of the District concerning its future academic and student service programs, and the effects of such programs on construction needs.

Specifically, the five-year construction plan will include the following:

- Location of program delivery
- Location of other owned lands
- District-wide priority lists
- District-wide capacity/load ratios
- District-wide supporting detail

Construction contracts will be let in accordance with Administrative Procedure 6350 and will comply with applicable laws relating to public works.
