Group voice class focuses on the basic techniques of vocal production and on becoming comfortable singing in front of others. It is a class that will benefit both the beginner and the experienced singer. Basic vocal techniques of breathing, support, articulation, vowels, and presentation will be taught in a group setting using songs from *Adventures in Singing*. Throughout the semester you will gradually begin to sing alone. Attendance is extremely important because your learning cannot be gained from a book but must be done experientially.
