23.	Please use this text box to provide any comments regarding the data submitted in this report (optional, no limit).  <p><b>The data for the number of courses in the catalog is straightforward. But we found that the number of courses available for ongoing assessment might not match exactly with the total number of courses in the catalog because some courses in the catalog are new and might not have had a chance to be offered and assessed. Similarly, courses in the catalog can become inactive over the life of the catalog and no longer available to be assessed. We made our best effort to present meaningful information.</b></p>
