

## KINESIOLOGY (KINS)

### About the program

This program is designed to provide students with an introduction to the academic discipline of Kinesiology and the scientific study of human movement. The AA degree provides a foundation in the fundamentals of human anatomy, physiology, and exercise movement. A bachelor's degree in Kinesiology can lead to careers in exercise science, athletic training, research, personal trainer, and as a teacher and/or coach.

### Program Learning Outcomes

The Associate in Arts in Kinesiology for Transfer degree is intended for students who plan to complete a bachelor's degree in Kinesiology at a CSU campus. Students completing the Associate in Arts in Kinesiology for Transfer degree are guaranteed admission to the CSU system, but not to a particular campus or major. This preparation includes the following student learning outcomes: 1) Explain the anatomical structure and the physiological mechanism of the human body; 2) Apply the techniques and principles of the components of fitness and demonstrate knowledge in at least three areas of physical fitness; 3) Identify career and / or educational options in physical education, and formulate an action plan to successfully pursue and attain those options. Students transferring to a CSU campus that does accept the Associate in Arts in Kinesiology for Transfer will be required to complete no more than 60 units after transfer to earn a bachelor's degree. This Associate in Arts degree for Transfer may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with an Academic Advisor for more information about university admission and transfer requirements.
