Program Learning Outcomes

- Human Flourishing: Advocate for patients and families in ways that promote self-determination, integrity and on-going growth as human beings.
- Clinical Reasoning and Judgment: Use clinical reasoning and judgments in nursing practice, substantiated with evidence that integrates nursing science in the provision of safe, quality care and that promotes the health of patients within a family and community context.
- Spirit of Inquiry: Examine the evidence that underlies clinical nursing practice to challenge the status quo, question underlying assumptions, and offer new insights to improve quality of care for patients, families and communities.
- Professional Identity: Implement one's role as a nurse in ways that reflect integrity, responsibility, ethical practices and an evolving identity as a nurse committed to evidence-based practice, caring, advocacy and safe, quality care for diverse patients within a family and community context.
- Apply knowledge from general education coursework in biologic sciences, social sciences, communication and mathematics when understanding and providing safe quality care to patients and their families.
