

Dental Health Center

The College of the Redwoods Dental Health Center provides reduced cost dental services performed by a licensed dentist and registered dental hygienist being assisted by students enrolled in the Dental Assisting Program. Our services are available to the community; we do however give priority to students and staff of the College of the Redwoods. We do not provide emergency care and appointments are required.

While we provide quality dental care, the Dental Health Center is an educational setting and our primary responsibility is to ensure that our student's educational requirements are met. Patients receiving dental care are participating in the teaching program. Because this is a teaching environment appointments generally take longer than at a private office.

Services Offered

- Preventative exams, x-rays, cleanings, fluoride treatments and sealants
- Restorative fillings (composite/resin and amalgam), crowns (porcelain/gold, bridges (porcelain/gold)
- Prosthodontics full dentures and partial dentures

Complex or extensive dental treatment is beyond our scope of service. Only patients whose dental, medical condition and complexity are suitable for teaching purposes will be accepted for treatment. The Dental Health Center does not perform extractions or root canal therapy. We reserve the right to refuse to render specific treatment if it does not meet the prevailing standard of dental care.

Schedule an Appointment

College of the Redwood Dental Health Center is open during the academic school year (October-May) on Mondays and Wednesdays. Appointments are limited. To schedule an appointment or for further information please contact 476-4250.

Location

The Dental Health Center is located in Room AT101 of the Applied Technologies Building on the College of the Redwoods Eureka campus. The Applied Technology Building is #26 on the [Eureka Campus Map](#). Patients will be issued a parking permit for the time of their appointment.

For additional information about the College of the Redwoods Dental Health Center please contact 476-4250.

Application to Become a Patient

All patients require a new patient exam, an initial comprehensive dental examination that includes a record of your medical and dental history and complete radiographs (x-rays). At this exam it will be determined if your dental care needs can be met at our clinic. Patients whose treatment cannot be provided at our clinic will be given a referral to an appropriate provider.

Radiographs (X-Rays)

Dental radiographs will be taken as necessary and appropriate for examinations, diagnosis, consults and treatment. If you have current (taken within the past fourteen months), diagnostic quality radiographs you may submit them, however we may need to take additional radiographs and charge the appropriate fee.

Financial Responsibility

Patients will be charged for treatment according to the current fee schedule in effect. A fee estimate will be provided prior to beginning treatment. However, some proposed treatments and plans require modification once treatment begins.

Full payment is due at the time of service. We do not accept health insurance or MediCal. We accept cash, checks, or Visa, MasterCard and Discover.
