Prior to submitting this form students must meet with a Counselor for recommendation to be readmitted. Once a recommendation is granted the Academic Appeals Committee will consider whether or not students may be readmitted after a dismissal and one semester absence.

**Students who want to be considered for readmission, please provide a detailed explanation of your circumstance and how your situation has changed which would eliminate those factors that caused difficulties.**

Consideration for Appeals:

- Documented Extenuating Circumstances
- Other college credit or non-credit coursework showing marked improvement after dismissal
- Improved GPA as a result of grade changes, fulfillment of incomplete courses, or academic renewal
- The student participates in a corrective program designed to assist him/her in improving academic skills

Please provide explanation on a separate page
