Linking or Copulative Verbs and Subjective Complements

Unlike verbs which indicate action, a liking or copulative verb expresses a static condition or state of being. The function of copulative verbs is to couple or link the subject and verb to a complement, a noun, pronoun, or adjective which follows the verb.

**EXAMPLE:**

<table>
<thead>
<tr>
<th>Subject</th>
<th>LV</th>
<th>Adj (subject complement)</th>
</tr>
</thead>
<tbody>
<tr>
<td>The surface</td>
<td>was</td>
<td>rough.</td>
</tr>
</tbody>
</table>

**EXAMPLE:**

<table>
<thead>
<tr>
<th>Subject</th>
<th>LV</th>
<th>Noun (subject complement)</th>
</tr>
</thead>
<tbody>
<tr>
<td>The instructor</td>
<td>is</td>
<td>Helen Clayborn.</td>
</tr>
</tbody>
</table>

**EXAMPLE:**

<table>
<thead>
<tr>
<th>Subject</th>
<th>LV</th>
<th>Pronoun (subject complement)</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>am</td>
<td>she.</td>
</tr>
</tbody>
</table>

Review the most often used linking or copulative verbs listed here.

<table>
<thead>
<tr>
<th>am</th>
<th>be</th>
<th>feel</th>
<th>smell</th>
</tr>
</thead>
<tbody>
<tr>
<td>are</td>
<td>been</td>
<td>grow</td>
<td>sound</td>
</tr>
<tr>
<td>is</td>
<td>appear</td>
<td>prove</td>
<td>stand</td>
</tr>
<tr>
<td>was</td>
<td>become</td>
<td>remain</td>
<td>taste</td>
</tr>
<tr>
<td>were</td>
<td>continue</td>
<td>seem</td>
<td>turn</td>
</tr>
</tbody>
</table>
When adverbs follow these verbs, the verb is not identified as a linking verb.

<table>
<thead>
<tr>
<th>PATTERN:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Subject  Verb  Adverb</td>
</tr>
</tbody>
</table>

**EXAMPLE:**

<table>
<thead>
<tr>
<th>Subject</th>
<th>Verb</th>
<th>Adverb</th>
<th>Prep. Phrases</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jonathan</td>
<td>stood</td>
<td>nervously</td>
<td>in front of the class.</td>
</tr>
</tbody>
</table>

**EXAMPLE:**

<table>
<thead>
<tr>
<th>Subject</th>
<th>Verb</th>
<th>Adj. (Sub. Comp.)</th>
<th>Prep. Phrases</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jonathan</td>
<td>became</td>
<td>nervous</td>
<td>in front of the class.</td>
</tr>
</tbody>
</table>

**EXAMPLE:**

<table>
<thead>
<tr>
<th>Subject</th>
<th>LV</th>
<th>Adj. (Sub. Comp.)</th>
<th>Prep. Phrases</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jonathan</td>
<td>stood</td>
<td>tall</td>
<td>in front of the class.</td>
</tr>
</tbody>
</table>

The adverb which follows the verb refers to the action of the verb. The last two examples illustrate adjectives following linking verbs.
Pre-Test

A score of 90% or better on this test indicates a mastery of the skills for which this test has been designed.

**DIRECTIONS:** In the blanks provided, write the number if the sentence pattern which identifies the sentence structure. Use the numbers of the sentence patterns listed here.
