

Academic Readiness in Mathematics:

A noncredit Certificate of Competency in mathematics. This sequence of noncredit basic mathematics courses serves as a pathway to credit-bearing mathematics courses by providing students with a foundation in arithmetic and pre-algebra. Completion of this certificate also benefits students in other programs or careers where knowledge of fundamental mathematical concepts is essential for success.

Required Courses

- MATH 272 Arithmetic for College Preparation
 - MATH 276 Pre-Algebra for College Preparation
-

Career and College Foundations:

A noncredit Certificate of Competency to help students successfully transition to college or a new career. This sequence of three courses allows students to explore their options and discover what they need to learn to be successful in reaching their academic or vocational goals. Work and college readiness is developed through instruction in reading and computer literacy to prepare students for further education or a new career.

Required Courses

- EDUC 220 Career and College Foundations
- EDUC 207 Getting Started with Computers
- READ 260 Developing Literacy
