I am the first of my family to attend college. I come from a working class family. Money as of this moment, is a big issue. For I will not receive any funding from my family, due to the "head of the house" being disabled.	1	.3	.3	92.1
I expect to increase my overall knowledge and prepare myself for further education, as well as increase my artistic and linguistic skills.	1	.3	.3	92.3

<p>I have received the run around with trying to talk to a counselor or advisor just to see where I'm at with my other transcripts. The people that I actually got a hold of on the phone gave me conflicting information, that in turn wasted my time and energy coming down here. As of this point I'm not very impressed, particularly with the counseling and advising department. How can you not have anyone available to do an out of state transcript evaluation? My time is valuable, I'm not receiving any financial aid because supposedly I'm too rich, but yet too poor to get money. My understanding of a community college is for the community. I am part of this community, pay my taxes, this process should be as simple and user friendly as possible. I will continue to keep you updated as my experiences with all aspects of this college while I am attending.</p>	1	.3	.3	92.6

<p>You did not ask the most important questions that addressed my academic needs for a different degree/certificate program. I wanted to become a physical therapy assistant-CR does not offer this. It is impossible for me to transfer out of this area due to family and financial resources. This area is changing economically and there is no school that teaches PTA, OTA, Dental Hygiene Vet. Tech., or any other higher paying jobs. Why? This is what is most needed at this time in this area and quite frankly I find it appalling that this survey never addressed this issue! Perhaps, the powers who make these decisions should come to the realization that it is time to focus less on the reality that there are students who would be of benefit to this type of survey and remember to continue looking forward to the students who are ready to accept these challenges. How can you have a plan to go forward if you are still wondering what your basic student demographic is. Where is the vision and why is CR not the leader! Both aspects of student life and necessity can be addressed at the same time. With all the organic farming that is truly the future of much of Hum. County why does C.R. not offer a degree program in this field?</p>	<p>1</p>	<p>.3</p>	<p>.3</p>	<p>100.0</p>
