Recent Feedback

Nothing for now

The Dashboard includes a course card for each of your favorite courses

The Sidebar helps you see what you need to do next across all your courses

The Global Navigation Menu shows on every page in Canvas and provides quick access to frequently used Canvas features

See the Canvas guides for global navigation for more information

The Course Home Page involves Course Navigation **[1],** the content area **[2],** and the sidebar **[3].**

Course Navigation includes links that help you get to specific locations in the course. Instructors can customize what links are shown in a course, so if you don't see links that may display in other courses, your instructor has hidden those links from your view. See Canvas Course Home Page

Click the Help Button to: Ask your instructor a question or Access the Canvas Online Help, Documentation, Videos and Guides
