

STUDENT EMAIL - GOOGLE DOCS TO .DOCX FILE DOWNLOAD

All students have access to Google Docs thru their email account. This allows the student to create documents and save them in MS application format so they can be submitted to Canvas. If your instructor requires .docx (MS Word Document files) and you do not have MS Word you can use your student email account to access Google Docs and download your work as a .docx file. See Below:

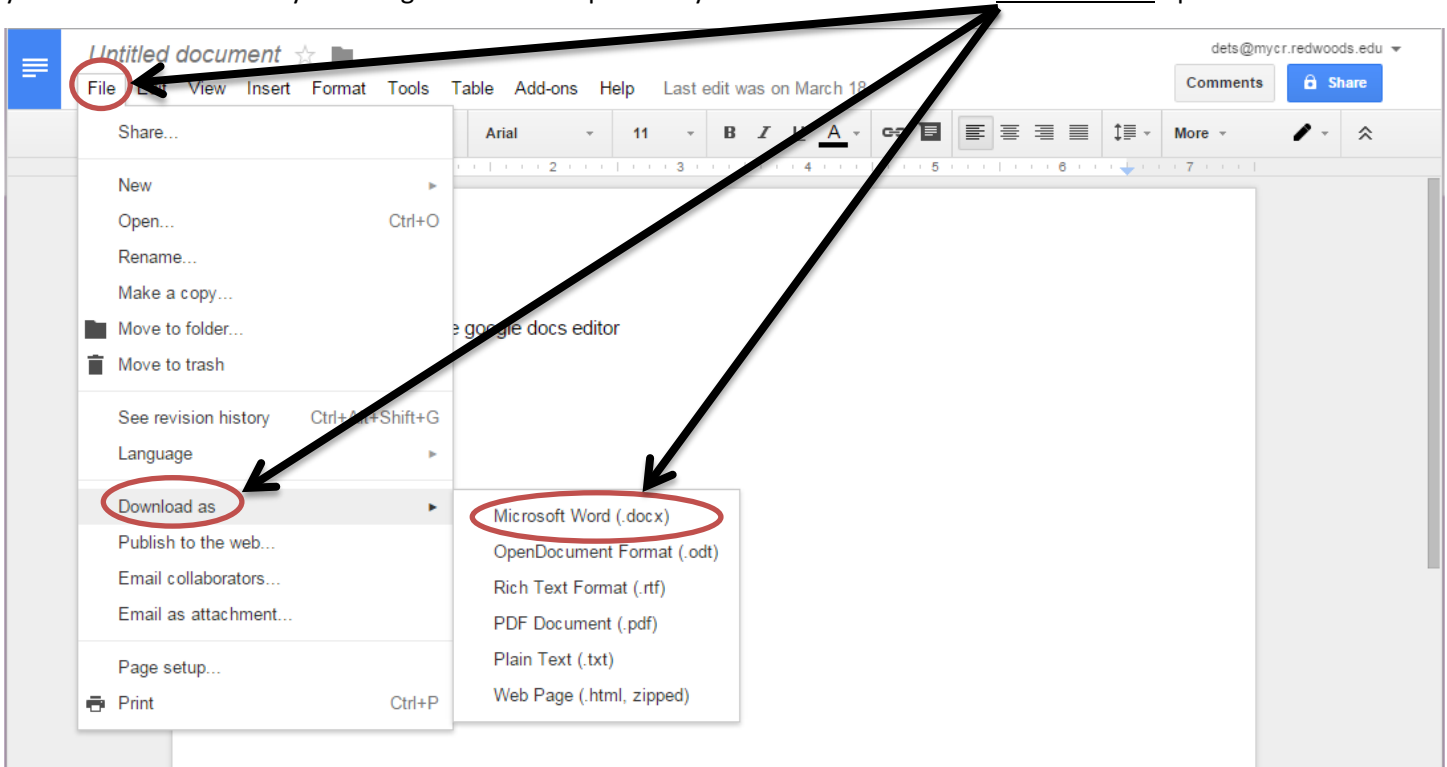

To Create a Google Doc select the document type **Docs** from the drop down list

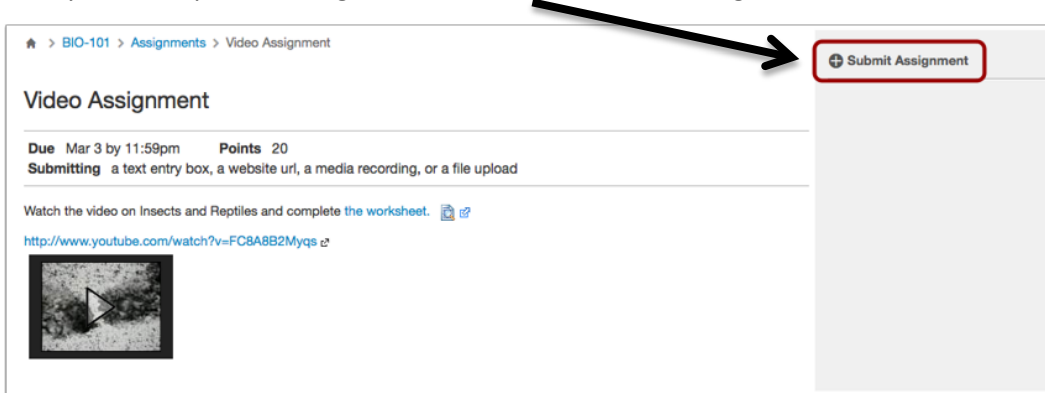

Online - Google Docs

After you have created your document you MUST download it in the .docx format and submit it to Canvas. Do NOT send your instructor a link to your Google Doc unless specifically asked to do so. Use the **Download as** option and select .docx

Save your file, open the assignment and Click the Submit Assignment link.:

To upload a file from your computer, click the Choose File button [1]. When the file window appears, locate and click the name of the file. At the bottom of the window, click the Choose or Browse button (depending on your browser).
