

LIBERAL ARTS (LA)

About the program

The Associate in Liberal Arts is designed for students who want a broad knowledge of the liberal arts and sciences. This degree requires the successful completion of the general education pattern and an area of emphasis that meets the student's educational goals. The general education pattern provides a broad knowledge of the liberal arts and sciences and the emphasis area requires a student to focus on a specific academic area.

About this Degree

The Liberal Arts: Agriculture degree is designed to prepare students for transferring to a four-year institution by including commonly required introductory courses for majors in agricultural science, agricultural education, and agricultural business. This degree also provides a broad background in agricultural studies for students who will ultimately pursue a career in an agricultural field. Students should seek advising before selecting specific courses in order to meet specific university requirements for their university major.

Suggested Program Sequence

For information about the program length and suggested sequence of courses for this degree, please see an Academic Advisor.

Program Learning Outcomes

- Describe the importance of the agriculture industry to the local, state and national economies.
- Demonstrate proficiency using computers, the internet, and other technologies as they relate to the agriculture industry.
- Apply best management practices to agriculture production scenarios.
