ABOUT THE AIRMEDCARE NETWORK

In a medical emergency, every second counts, especially when transporting patients who are far away from appropriate medical treatment. No one knows that better than AirMedCare Network (AMCN).

AMCN providers respond to scene calls and provide hospital-to-hospital transports--carrying seriously ill or injured patients to the nearest appropriate medical facility.

AirMedCare Network is America's largest air ambulance membership network. AMCN provides coverage across 320 locations in 38 states with over 3 million network members.

Expenses for emergency air medical can put stress on your finances. With an AMCN membership, you will have no out-of-pocket expenses only if flown by an AMCN provider. Membership fees cover not just the individual, but anyone who resides within the household.
