

# AG17 Introduction to Soil Science

## Course Information

Semester & Year: Fall 2024

Course ID and Section number: AG-17-E7403

Instructor's name: Luke A. Besmer

Day and time of required meetings: Mondays & Wednesdays 9:00-11:30

Location: Applied Technology, Room 108

Course units: 3.00

Recommended Textbook: **Elements of the Nature and Properties of Soils 4<sup>th</sup> Edition**

by Weil, Raymond R. / Brady, Nyle C. ISBN:9780133254594 (Older Editions are acceptable)

## Instructor Contact Information

Office location or Online: Applied Technology, Room 108

Communication notes: Alternative office hour meeting times can be set up to accommodate student schedule conflicts.

## Catalog Description

The study of soil physical, chemical, and biological properties. Soil classification, derivation, use, function and management including erosion, moisture retention, structure, cultivation, organic matter, and microbiology. Laboratory topics include soil type, classification, soil reaction, soil fertility, and physical properties of soil. Laboratory required.

## Course Student Learning Outcomes

- Evaluate parent material, minerals and rocks, and other soil forming processes on local and global scales.
- Discuss and understand the importance of essential plant nutrients.
- Demonstrate and determine the physical properties of soil.
- Analyze a soil's water holding capacity, water availability in relation to plant growth, properties and movement of water in soil.
- Understand soil testing procedures and interpret results.
- Understand the composition and use of various soil amendments and fertilizers.

## Evaluation & Grading Policy

### Final Course Grade will be Calculated as Follows

Assignment	#	Points	Total Points
Weekly Homework	8	10	80
Current Research Reviews	8	15	120
Laboratory Exercises & Write Ups	12	35	420
Report/Presentations	1	80	80
Mid Semester Exams	2	100	200
Final Exam	1	100	100

Extra Credit Opportunities Will be Available

1000

**Late Assignments:** All assignments are due by the date noted on Canvas. Exceptions may be made for reasonable circumstances.

**Exams:** Exams will take place in person during the scheduled time unless otherwise specified by your instructor. Accommodations can be made as necessary.

**Homework:** Assignments will typically be made on Mondays and will be applicable to topics or questions posed in class. We will discuss them the following Wednesday.

**Research Reviews:** Research papers will be posted to Canvas by Wednesday and will be discussed the following week.

**Reports/Presentations:** Students will identify a location where they would like to cultivate the land and produce an agricultural crop. Students will write a 3-5 page report on the soil, water, climate, and growing conditions otherwise. Students will present their "Dream Farm" to the class at the end of the semester.

## Academic dishonesty

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](#)) is

available on the College of the Redwoods website. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [2023-2024 College Catalog](#) and [CR Board and Administrative Policies](#).

## AI Use Class Policy

Recent advancements in generative artificial intelligence (AI) have made large language models such as ChatGPT and Google's Bard widely available. However, overuse of these tools in this class can undermine your learning and curtail the development of your critical and creative thinking skills. In addition, AI outputs are often unreliable and frequently subject to bias. For these reasons, the policy of this class is that AI cannot be used at any point in the completion of class assignments, including discussion posts. Any or all of your assignment submissions and discussion posts may be screened by AI detection software, but the real penalty for AI misuse is that you will miss out on an opportunity to learn.

## Disruptive Behavior

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process, a disruptive student may be temporarily removed from class. In addition, the student may be reported to the Chief Student Services Officer or designee. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [2023-2024 College Catalog](#) and [CR Board and Administrative Policies](#).

## Inclusive Language in the Classroom

College of the Redwoods aspires to create a learning environment in which all people feel comfortable in contributing their perspectives to classroom discussions. It therefore encourages instructors and students to use language that is inclusive and respectful.

### Setting Your Preferred Name and Pronouns in Canvas

Students have the ability to display personal pronouns and an alternate first name in Canvas. Students may change their pronouns on their own in Canvas (Account :: Settings :: Edit Settings). To request a change to your preferred list name, contact [Admissions & Records](#). Your Preferred Name will only be listed in Canvas; this does not change your legal name in our records. See the [Student Information Update Form \(pdf\)](#).

## Emergency Procedures / Everbridge

College of the Redwoods has implemented an emergency alert system called Everbridge. In the event of an emergency

on campus you will receive an alert through your personal email and/or phones. Registration is not necessary in order to receive emergency alerts. Check to make sure your contact information is up-to-date by logging into [WebAdvisor](#) and selecting 'Students' then 'Academic Profile' then 'Current Information Update.'

Please contact Public Safety at 707-476-4112 or [security@redwoods.edu](mailto:security@redwoods.edu) if you have any questions. For more information visit [Redwoods Public Safety](#).

In an emergency that requires an evacuation of the building anywhere in the District:

- Be aware of all marked exits from your area and building
- Once outside, move to the nearest evacuation point outside your building
- Keep streets and walkways clear for emergency vehicles and personnel

Do not leave campus, unless it has been deemed safe by the campus authorities.
