

Syllabus for Astronomy 11

Course Information

Semester & Year: Summer 2023 (5/30-7/20) Course ID & Section #: Astro 11 (V6326) Instructor's name: Dr. Jon Pedicino

Day/Time, optional Zoom class meetings: TuTh 6:30-8:00 PM, Meeting ID 982 6244 7566

Zoom link: https://redwoods-edu.zoom.us/j/98262447566

Course units: 3.0

Instructor Contact Information

Office: Online Zoom, (Wed 8:00-8:30 PM) Meeting ID 920-1599-8302

https://redwoods-edu.zoom.us/j/92015998302

Email address: jon-pedicino@redwoods.edu, Zoom phone in # 1-669-900-6833 (then input meeting ID)

Catalog Description

An examination of the geologic processes that have shaped the planets and moons of our solar system. This class will specifically look at the formation of the solar system, the history of space exploration, missions to the moon and Mars, and the search for life.

Course Student Learning Outcomes (from course outline of record)

- 1. Critically analyze data, specifically astronomical images.
- 2. Analyze imagery in the context of evolutionary history, age, abilty to support life for a particular set of astronomical objects.
- 3. Recognize a wide variety of planetary geologic constructs and astronomical objects.
- 4. Analyze how the scientific method is used to understand natural phenomena.

Grading

50%-Tests (2) 25% each, 25%- Final (3rd Test, Part Cum),12.5%- Project/Paper,12.5%- In Class Present A (>93.3%), A- (90-93.3%), B+ (86.7-89.9%), B (83.3-86.6%), B- (80-83.2%), C+ (76.7-79.9%), C (70-76.6%), D (55-69.9%), F (<55%)

Accessibility

Students will have access to online course materials that comply with the Americans with Disabilities Act of 1990 (ADA), Section 508 of the Rehabilitation Act of 1973, and College of the Redwoods policies. Students who discover access issues with this class should contact the instructor.

College of the Redwoods is also committed to making reasonable accommodations for qualified students with disabilities. If you have a disability or believe you might benefit from disability-related services and accommodations, please contact your instructor or <u>Disability Services and Programs for Students</u> (DSPS). Students may make requests for alternative media by contacting DSPS based on their campus location:

- Eureka: 707-476-4280, student services building, 1st floor
- Del Norte: 707-465-2324, main building near library
- Klamath-Trinity: 530-625-4821 Ext 103

Approved accommodations for distance education classes will be emailed to the instructor by DSPS. In the case of face to face instruction, please present your written accommodation request to your instructor at least one week before the first test so that necessary arrangements can be made. Last-minute arrangements or post-test adjustments cannot usually be accommodated.

Astronomy 11 Class Schedule

Tuesday, May 30, Class begins

Thursday, June 22, Tuesday, July 4- No Class

Monday, June 19, Test #1 Due, 6 PM on Canvas

Monday, July 10, Test #2 Due, 6 PM on Canvas

Tuesday, July 11, Presentations Due, In class

Tuesday, July 18, Paper due, 6 PM on Canvas

Thursday, July 20, Final Exam, 9 PM on Canvas

Astronomy 11 Topics/Outline

Online open textbook: https://openstax.org/details/books/astronomy-2e

Class videos on Youtube: https://www.youtube.com, Search Redwoodsastronomy (37 numbered videos)

Class	Openstax Text	Slide Set	Youtube video	<u>Topic</u>
Tu, 5/30	1.4, Appendix C/D		3,4	Introduction, Units, Scientific Method
Th, 6/1		1		Overview Slides and Space Imagery
Tu 6/6		1		Overview Slides and Space Imagery
Th 6/8	5.1, 5.2	3	16, 17	EM Radiation (Light), Spectrum
Tu 6/13	29.6, 29.3, 29.1-2	2	23, 24	Big Bang
Th 6/15	7.4, 21.1, 21.3, 14.3	2	25	Solar System Formation
Th 6/15	14.4, 21.46	2		Extrasolar Planets
M, 6/19				Test #1 due on Canvas at 6 PM
Tu, 6/20	8.1-8.4	4	27	Planet Earth
Tu, 6/27		5		Space Exploration
Th, 6/29	9.1-9.4	6	28	The Moon
Th, 7/6	10.1, 10.46	7,8	29 (Mars)	Mars
M, 7/10				Test #2 due on Canvas at 6 PM
Tu, 7/11				In Class Research Presentations

Th, 7/13		In Class Research Presentations	
Tu, 7/18 12.13	10	30 (Moons)	Paper Due, Io, Europa, Titan, Enceladus
Th. 7/20			Final due on Canvas by 9 PM.

Research Essay/Presentation Requirements Astronomy 11

Topic: As assigned/chosen from the <u>class list of space missions</u>. I would suggest consulting the internet for information. Some good places to start are <u>www.nasa.gov</u>, <u>www.spacedaily.com</u>, <u>www.spacedaily.com</u>, <u>www.spacedaily.com</u>, <u>www.spacedaily.com</u>, <u>www.spacedaily.com</u>, .

Length: 3-5 typed pages (1100 word minimum), excluding figures and list of references.

Sources: Minimum Three (3) sources other than encyclopedias and textbook.

Required: Essay, References (footnotes), Reference List (bibliography).

Essay Due Date: Tuesday, July 18, 2023 at 6 PM on Canvas.

Late Penalty: No late papers accepted after July 20 (9 PM), late paper loses full grade each day.

Presentation Due Date: Tuesday, July 11, 2023. (In class)

*Note: Presentation must be approximately 8-10 minutes in length and may include visual media such as powerpoint slides.

<u>Note:</u> **Bibliography** should be a list of all sources you have consulted with full information given about each. Normally this includes title, author, publisher, page numbers, year, etc. Internet sites should be listed with their site address (i.e. http://www......). To simplify, you might list each site as site 1, site 2, etc., and then reference them in that way in the text of your paper.

You should directly **reference** any idea, fact, or quotation that is not your own or common knowledge (i.e. 'the Earth is round' does not need a reference). You are free to use any reference style you would like (MLA, APA). The simplest style includes the author's name or title and the page number or the website (site 1, site 2, etc) following the referenced fact, quote, or idea in parentheses.

An example: The meteoritic impact in the Yucatan peninsula is believed to have led to the extinction of the dinosaurs. (Kring, 1993) or (site 1)
