Note: This course satisfies life science general education requirements at CR and CSU. Students who have completed BIOL-1 should NOT take this course, unless they are planning on entering the LVN program. This course is required in the first semester of the LVN program. If you have completed BIOL-1, BIOL-6 and BIOL-7, please speak with a counselor or advisor before enrolling in this class.

Course Student Learning Outcomes

Academic dishonesty

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](https://redwoods.instructure.com/courses/13647/pages/student-code-of-conduct-and-disciplinary-procedures?module_item_id=501435) (https://redwoods.instructure.com/courses/13647/pages/student-code-of-conduct-and-disciplinary-procedures?module_item_id=501435)) is available on the College of the Redwoods website. Disruptive behavior

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process, a disruptive student may be temporarily removed from class. In addition, the student may be reported to the Chief Student Services Officer or designee. Policies for this Class

Class participation

Lecture and lab are intimately interrelated. The topics you learn about in lecture you see in lab, usually that very week. Most labs focus on a particular topic and contain three main types of activities: 1) study of microscope slides or 2) observation of gross anatomical models and dissection of preserved specimens, and 3) observation of human cadavers to learn anatomy and to demonstrate form and function. You are assigned specific exercises in your lab handouts to complete and are expected to answer all questions and make all observations and drawings on extra paper.

Lecture Exams: There are three lecture exams including the lecture final. Exams are not comprehensive and will only cover new material.

Weekly Chapter Quizzes: Each week you will take a quiz covering that week's lecture material. We will not have a quiz on the week we take a lecture exam.

Discussion Board: There are a total of 7 discussion board topics. You will be required to make an initial post by Friday at midnight of that week. You then will respond to at least two of your fellow classmates by the following Monday at midnight. There are no make ups if you miss the discussion board.

Student Presentation: You will work individually to research a topic on a genetic disorder or disease and present your findings to the class. Presentations will be given in the last week of regular class and topics covered may be on the final exam.

Homeworks: Homeworks are designed to prepare you for the lecture exams and will be assigned prior to each exam.

Attendance Policy

This is an online class and as such you have the freedom to choose when you engage with course content, however, there are strict deadlines on when assignments will be due. This is not a self-paced course and you will have assignments due each week. You must complete assignments on time. No late assignments will be accepted and no extra credit opportunities will be given.

Academic Integrity and Honor Pledge

As a College of the Redwoods student enrolled in an online class you are expected to conduct yourself with integrity. Please review the [Academic Integrity](https://redwoods.instructure.com/courses/13647/pages/academic-integrity?module_item_id=501436) (https://redwoods.instructure.com/courses/13647/pages/academic-integrity?module_item_id=501436) page and then complete the [Syllabus Quiz](https://redwoods.instructure.com/courses/13647/quizzes/63530?module_item_id=501438) (https://redwoods.instructure.com/courses/13647/quizzes/63530?module_item_id=501438) by Tuesday, January 19th at midnight.
