Class Policies, Assignments and Grading

Code of Conduct

Professional conduct is built upon the idea of mutual respect. You will be expected to communicate and behave professionally in all class communications and interactions. This includes respectfully disagreeing with each other when appropriate, offering constructive criticism to each other's work, respecting perspectives different from your own, and embracing the idea (which I strongly believe in) that we can learn quite a bit from each other and our diverse belief systems and life experiences.

AI Use Policy

Please see the AI policy for this course below. You are encouraged to use ChatGPT or similar Generative AI tools in this class. These tools are becoming increasingly common for use in academic and professional settings. This will be an opportunity for you to learn the tools but ***please note the requirements and limitations mentioned in the policy description below.***

You can sign up for a free accounts to access commonly used AI tools below:

- OpenAI: <https://chat.openai.com/auth/login>
- Microsoft: [Bing AI - Search](#)
- Claude: [Claude](#)

AI Policy, Student Responsibilities, and Limitations of AI Use

1. Generative AI tools are imperfect and require refinement from the user to maximize the usefulness of the results.
 - a. To get started, please read the following article to learn more about ChatGPT and how to improve the results that it gives you: [How to use ChatGPT for this course](#). Please see above for other tools similar to ChatGPT for you to explore.
 - b. Don't exclusively use AI tools for research and certainly don't trust the results as factual. It is your responsibility to use multiple sources to validate results.
 - c. Please use the following convention for reporting any AI use in this class:
 - i. Include a brief note under the title of "AI Use" at the end of the assignment that defines the AI tools used and the prompts that you used to get the results. ***Failure to report this information will result in a violation of the Academic Dishonesty policy at CR.***

Cannabis policy

The Cannabis industry is a major contributor to our local economy. In addition, state legalization has opened up many business opportunities in California for entrepreneurs in this industry. That said, cannabis is still illegal at the federal level, creating a murky legal environment for many entrepreneurs in this category. Our policy is clear - we cannot support or train businesses to participate in this industry until it becomes legal at the state *and* federal level. In the meantime, and given the great impact of cannabis on our community, we will discuss *hypothetical scenarios* that operate under the assumption that cannabis is federally legal (i.e., discussions about a hypothetical future).

Assignments

Discussion posts, critical reviews and social media insights. You are required to post four times per week (for the first 10 weeks). Please see Modules in Canvas for detailed instructions and due dates for each week. As mentioned above, the Modules section is the best way to keep track of what is due by week.

The following are the Canvas posts that are due each week (until Week 10 in Modules):

- Discussion post
- Startup insight post
- Critical review post

Please note that posts and discussions in class are available for everyone to see and/or hear, therefore, if you have business ideas that you would like to keep confidential, it is highly recommended to not share them in this class.

Lab Work - Book Training assignment: Rather than provide a specific outline for this assignment, let me offer the following information to you. Imagine that you are a consultant and you've been hired to train our class on the key concepts from the text that was assigned to you. In a real-world scenario, the client would expect that you would decide how best to educate and train the founding team and all employees. I'm going to give you the same opportunity. So, your challenge is to make sure that you achieve the *following outcomes* in a **15-minute** presentation to our class:

Students who observe and participate in your presentation should leave with:

- A general understanding of the hypotheses and core concepts.
- Recommendations for how to use this book in a real-world context (i.e. why is this learning valuable to our understanding of how to start and/or grow a business? How can students use the learning to improve their business?
- **The Challenge: What are the 3-5 most impactful elements of the book that you will teach us? Why do you feel this way? How are these relevant to our future careers as business leaders?**

Presentation materials are required and posted in *Canvas by the due date*.

Final Plan Presentation and Spreadsheets: We will discuss the requirements for the final plan and spreadsheet assignments extensively in our Zoom meetings. You will be developing the content for your plan over the course of the semester. You will be asked to record and post a video of your business plan presentation and upload it to Canvas for peer and instructor review. An outline for your business plan presentation will be provided via Canvas.

Grading (The Bottom Line)

Please see Canvas for more details regarding these assignments, including due dates. Assignments and points are subject to change. Grades will be assigned using the following performance measures:

Weekly discussion posts (10 points each)	100 Points
--	------------

Weekly critical reviews (10 points each)	100 Points
Startup insight posts (10 points each)	100 Points
Lab work / Book Training	100 Points
Financial worksheets - draft submissions	30 Points (3 x 10 pts)
Final spreadsheets (posted to Canvas)	100 Points
Final presentation	100 Points
Total Points Possible	630 Points

PLEASE NOTE: The above assignments and point totals are **tentative / subject to change**.

100% - 93%	A	92.9% - 90%	A-	89.9% - 87%	B+
86.9% - 83%	B	82.9% - 80%	B-	79.9% - 77%	C+
76.9% - 70%	C	69.9% - 60%	D	59.9% - 0%	F

If your final grade is “on the bubble” (e.g., 79% or 89%), active ***class participation*** will be the deciding factor.

Notes / reminders: *The work schedule above is subject to change.* I will keep the class informed of any changes.

Academic dishonesty

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, the grade and the student's status in the course is left mainly to the faculty member's discretion. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](#)) is available on the College of the Redwoods website. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [2023-2024](#) College Catalog and [CR Board and Administrative Policies](#), and [CR Board and Administrative Policies](#).

Disruptive Behavior

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process, a disruptive student may be temporarily removed from class. In addition, the student may be reported to the Chief Student Services Officer or designee. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [2023-2024](#) College Catalog and [CR Board and Administrative Policies](#), and [CR Board and Administrative Policies](#).

Inclusive Language in the Classroom

College of the Redwoods aspires to create a learning environment in which all people feel comfortable in contributing their perspectives to classroom discussions. It therefore encourages instructors and students to use language that is inclusive and respectful.
