Catalog Description

An intermediate-level course in object-oriented programming (OOP). Students will use object-oriented and event-driven concepts to design, implement, and test programs written using a modern programming language. The course includes concepts common to all programming languages and those specific to event-driven languages.

Course Student Learning Outcomes

Upon successful completion, the student will be able to:

1. Design advanced object-oriented computer programs using a variety of techniques and tools.
2. Create programs using basic logic and data structures.
3. Test applications with sample data.

Prerequisites / Co-requisites / Recommended Preparation

CIS-12 and (Math-301, but Math 30 Preferred) are the recommended preparations for this class, which means a fundamental understanding of how computers work and effective math skills.

Required Materials:

Zero Cost Textbook title: [Think Java, How to Think like a Computer Scientist](https://greenteapress.com/thinkjava7/thinkjava2.pdf)
(<https://greenteapress.com/thinkjava7/thinkjava2.pdf>)

Online Materials:

- [Refactoring GURU](https://refactoring.guru/design-patterns) ➦ (<https://refactoring.guru/design-patterns>)
- [THartmanOfTheRedwoods \(My notes for you!\)](https://thartmanoftheredwoods.github.io/archive.html) ➦

- **Make sure to download the Community Edition, you don't need Professional for this course!**
- **You will also need Git, which can be installed once IntelliJ is installed, we will work on this Week 1!**
- **If you want to get a head-start, and you don't already have a [GitHub Account](https://github.com/) , please create one now!**
 - **I recommend using your personal e-mail (not your CR Student E-Mail) for GitHub or you'll lose access to your GitHub account after leaving CR.**

Educational Accessibility & Support

College of the Redwoods is committed to providing reasonable accommodations for qualified students who could benefit from additional educational support and services. You may qualify if you have a physical, mental, sensory, or intellectual condition which causes you to struggle academically, including but not limited to:

- Mental health conditions such as depression, anxiety, PTSD, bipolar disorder, and ADHD
- Common ailments such as arthritis, asthma, diabetes, autoimmune disorders, and diseases
- Temporary impairments such as a broken bone, recovery from significant surgery, or a pregnancy-related disability
- A learning disability (e.g., dyslexia, reading comprehension), intellectual disability, autism, or acquired brain injury
- Vision, hearing, or mobility conditions

Available services include extended test time, quiet testing environments, academic assistance and tutoring through the [LIGHT Center](https://www.redwoods.edu/dsps/DSPS-Home/LIGHT-Center.html) , counseling and advising, alternate formats of course materials (e.g., audio books, braille, E-texts), assistive technology, learning disability assessments, approval for personal attendants, interpreters, priority registration, on-campus transportation, adaptive physical education and living skills courses, and more. If you believe you might benefit from disability- or health-related services and accommodations, please contact [Student Accessibility Support Services \(SASS\)](https://www.redwoods.edu/dsps/) . If you are unsure whether you qualify, please contact Student Accessibility Support Services (SASS) for a consultation:

Services include: transportation assistance, basic student supplies, tutoring, priority registration, laptop and calculator loans, career, academic, and personal counseling, and more!

Evaluation & Grading Policy

Course Grading:

Exams(3) = 40%

Project = 25%

Labs = 15%

Quizzes = 10%

Discussion Forums = 10%

Grade Scale:

90-100% = A; 80-89% = B; 70-79% = C; 60-69% = D; Less than 60% = F

Participation:

I highly recommend that you log on to Canvas at least 5 days a week to check announcements, post labs and project updates, and take quizzes and exams. There are strict deadlines posted for labs, project updates, quizzes, and exams that you must be aware of in order to avoid penalties.

Previously recorded video tutorials will be provided to support your coursework in addition to in person Lab and Lecture.

Students are expected to:

1. Do the assigned reading from the textbook
2. As needed, research topics using the Web and/or supplemental textbooks
3. As needed, download, install, and learn additional free software
4. Complete a semester long project
5. Complete all labs
6. Take all quizzes
7. Take exams online
8. Participate in online discussion forums

Course Policies

Exams:

The exams are administered online, and you typically have a time window to complete the exam once it is open. Failure to complete an exam during the defined time window will result in a zero on that exam. There are no makeup exams. Be sure to give yourself plenty of time for technology and logistical problems when taking the exam. Please do not test this policy, you will be very disappointed with the results.

Quizzes:

Quizzes are administered online weekly, and are typically due on Saturday of each week. Failure to complete a quiz by the posted due date will result in a zero on that quiz. There are no makeup quizzes. Be sure to give yourself plenty of time for technology and logistical problems when taking the quiz.

Lab Work:

54 hours of lab work is also required. Note: The lab work doubles the amount of hours you will be working as compared to a typical non-lab 3 unit course. Be sure you understand the time commitment needed. The lab work will consist of exercises and tutorials requiring the use of a computer to demonstrate your understanding of the material presented. In addition to the technical requirements, labs are graded on proper documentation, neatness and completeness. All required elements must be present for full credit on a Lab. Labs will be due as noted in each week's Module.

Project:

Your project will incorporate features that build on the knowledge and skills gained from doing the lab work and requiring the use of a computer to demonstrate your understanding of the material presented. In addition to the technical requirements, labs are graded on proper documentation, projects are graded on neatness, design and completeness. All required elements must be present for full credit on your project. Project progress updates will be due as noted in each week's Module and validated in labs.

Project and Labs (does NOT apply to Discussions/Quizzes/Exams):

We all have "emergencies" that arise from time to time. In recognition of this reality, I have a "no questions asked" (NQA) policy. Here's how it works. At the beginning of the semester you will receive 3 NQA credits (virtually of-course). Each credit is worth one week. If something comes up, and you need to turn in a project update or lab late, you can use an NQA credit and turn it in up to one week late. A late project update or lab with the proper number of NQA credits indicated will be graded as if it were handed in on time, no questions asked!

A late project update or lab without an NQA will receive a zero! Late credit cannot be applied towards discussions, quizzes or exams and will not be allowed for the last lab or final project due date.

Discussion Forum Participation:

Ten percent of your grade is based on Discussion Forum participation, and participation in a weekly scrum.

There are 10 participation points available per week that are earned by posting answers to the week's discussion-forum topic and responding to classmates' postings as well as submitting a recorded weekly scrum meeting with your peer programming group. A maximum of 5 points can be earned by posting a quality answer to the week's discussion topic by the end of the day on Wednesday. An additional 5 points can be earned by posting at least two quality responses to classmates' postings by the end of the day on Saturday. If you do not post your topic response by the end of the day on Wednesday, you forfeit 5 points.

You can still earn 5 points for the week by responding to classmates' postings by the end of the day on Saturday. Failure to respond to classmates' postings by the end of the day on Saturday will result in forfeiture of 5 points for the week. Timely postings are essential to create a reasonable dialog on the week's discussion topic. You cannot makeup participation points, which means you cannot use NQA credits for discussion-forum postings. So make sure you post your response to the week's topic by Wednesday and respond to classmates' postings by Saturday.

Generally, a model posting will be one that shares what you have learned about the topic by providing at least one specific example from the assigned reading and/or video lecture material, and addresses any difficult/challenging concepts with specific descriptions. Replies to classmates will substantially comment on their examples and answer any questions they have. Read your peers' posts regularly to see their viewpoints. Sometimes it's surprising how many different ways a concept can be described.

In addition, you can spend some time researching the topics outside of your textbook. Use the Internet and other books to provide another perspective or a more detailed explanation. Including a hyperlink to relevant Internet information gives others the opportunity to learn more too. Remember to cite your references.

Just as you would use a nice tone in the classroom, be sure to prepare thoughtful and friendly responses online. The forum discussions are an opportunity to help others with their understanding of the concepts covered. If you see a post where someone is struggling to understand (or is incorrect), try to help them out. Find something positive to say about their effort, and then add your comments. Try to illustrate your explanation, rather than referring them to your post. Be polite, supportive, and encouraging. The online learning environment should be helpful and enjoyable!

One final note - anyone that acts offensively online will be subject to removal from the class. This includes using insulting (or foul) language, or being demeaning in discussion forum posts.

Connection Issues:

Problems with your internet connection or your computer will NOT result in an extension of the due date for any deliverable (lab/quiz/exam, etc.).

Disqualification/Excessive Absence Policy:

You will automatically be disqualified (dropped from the roll) if you have not posted your Week 1 Introduction to the Discussion Forum AND do not complete Quiz1 and Lab 1 by their respective due dates. In addition, you will be dropped from the course if you are not participating at least four days a week, or failing the course due to a lack of participation resulting in missed quizzes, labs, project updates, discussions or exams.

Incomplete Grades:

I do not give incomplete! However, if your place of residence is carried away by a tsunami while completing your final project, I may reconsider. This means an incomplete may be granted in EXTREME circumstances. You must be receiving at least a C grade at the time of the tsunami 🌊.

Fake Student Policy

Fraudulent enrollments are on the rise. To ensure that real students can get seats in the class, no shows will be dropped in the middle of the first week of classes. Also, if you are suspected of being a bot, you will be dropped from the class. If you have been dropped but are a real student, please contact your instructor right away to be reinstated in the class.

Important Fall 2024 Academic Dates

Academic Dishonesty

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the student’s status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The

Student Code of Conduct ([AP 5500](https://go.boarddocs.com/ca/redwoods/Board.nsf/goto?open&id=C9RVCG801790) ) (<https://go.boarddocs.com/ca/redwoods/Board.nsf/goto?open&id=C9RVCG801790>) is available on the College of the Redwoods website. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [College Catalog](https://www.redwoods.edu/catalog) ) (<https://www.redwoods.edu/catalog>) and on the [College of the Redwoods website](https://www.redwoods.edu/) ) (<https://www.redwoods.edu/>).

AI Use Class Policy

Use it to learn, **not to cheat**. Using AI to cheat only hurts yourself and your peers.

Disruptive Behavior

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process, a disruptive student may be temporarily removed from class. In addition, the student may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](https://go.boarddocs.com/ca/redwoods/Board.nsf/Public?open&id=policies) ) (<https://go.boarddocs.com/ca/redwoods/Board.nsf/Public?open&id=policies>) is available on the College of the Redwoods website. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [College Catalog](https://www.redwoods.edu/catalog) ) (<https://www.redwoods.edu/catalog>) and on the [College of the Redwoods website](https://www.redwoods.edu/) ) (<https://www.redwoods.edu/>).

Inclusive Language in the Classroom

College of the Redwoods aspires to create a learning environment in which all people feel comfortable in contributing their perspectives to classroom discussions. It therefore encourages instructors and students to use language that is inclusive and respectful.

DEIA+A Commitment Statement

I care about diversity, equity, and inclusion in my teaching. I am committed to creating a more equitable learning environment for my students.

Emergency Procedures / Everbridge

College of the Redwoods has implemented an emergency alert system called Everbridge. In the event of an emergency on campus you will receive an alert through your personal email and/or phones. Registration is not necessary in order to receive emergency alerts. Check to make sure your contact information is up-to-date by logging into [WebAdvisor](https://webadvisor.redwoods.edu)  [\(https://webadvisor.redwoods.edu\)](https://webadvisor.redwoods.edu) and selecting 'Students' then 'Academic Profile' then 'Current Information Update.'

Please contact Public Safety at 707-476-4112 or security@redwoods.edu [\(mailto:security@redwoods.edu\)](mailto:security@redwoods.edu) if you have any questions. For more information see the [Redwoods Public Safety Page](#) 

In an emergency that requires an evacuation of the building anywhere in the District:

- Be aware of all marked exits from your area and building
- Once outside, move to the nearest evacuation point outside your building
- Keep streets and walkways clear for emergency vehicles and personnel

Do not leave campus, unless it has been deemed safe by the campus authorities.
