Prerequisite: CT-21A Survey of Wood Technology

Accessibility

College of the Redwoods is committed to making reasonable accommodations for qualified students with disabilities. If you have a disability or believe you might benefit from disability-related services and accommodations, please contact your instructor or [Disability Services and Programs for Students \(DSPS\)](#). Students may make requests for alternative media by contacting DSPS based on their campus location:

- Eureka: 707-476-4280, student services building, 1st floor
- Del Norte: 707-465-2324, main building near library
- Klamath-Trinity: 530-625-4821 Ext 103

If you are taking online classes DSPS will email approved accommodations for distance education classes to your instructor. In the case of face-to-face instruction, please present your written accommodation request to your instructor at least one week before the needed accommodation so that necessary arrangements can be made. Last minute arrangements or post-test adjustments usually cannot be accommodated.

Required Materials

Textbook: "Woodworking" 2nd edition Author: Nancy Macdonald ISBN: 978-1-133-94963-3

Optional: "Workbook to accompany Woodworking" 2nd edition, Nancy Macdonald ISBN: 978-1-133-94962-6

Other Requirements: Safety glasses, tape measure, pencils, notebook, completed safety test.

If you have financial issues please talk to me, I can usually find some materials for you.

Student Support

Good information and clear communication about your needs will help you be successful. Please let your instructor know about any specific challenges or technology limitations that might affect your participation in class. College of the Redwoods wants every student to be successful.

Evaluation & Grading Policy

COURSE REQUIREMENTS

1. & 2. Assigned and Free Choice Projects (40%)

The planning for your free choice project must start right away. The main focus of this course is furniture construction. To get the most out of the lectures you should try to include the assignments into your free choice project. Plan to complete the required projects during the semester. Free choice projects require that you turn in a working drawing, Bill of Material, and Plan of Procedure for review with instructor before starting projects.

The required assignments are listed below. You may incorporate several of the assignments into your free choice project, or they may be done on scrap wood and turned in for a grade. To get the most out of the lectures the assigned projects should be completed following the lecture.

1. Sharpen and fine-tune a hand plane.
2. Construct mortise and tenon joinery on a leg and apron.
3. Create a cove using the table saw.
4. Build a drawer with dovetail joinery using the router.
5. Produce cabriole leg, ogee bracket foot or bandsawn box using the bandsaw.
6. Make a mortising template or patterning template to use as a router guide.
7. Turn a cylinder, taper, and bead on the wood lathe, sharpen a lathe tool.
8. Make a shop aid or jig useful to your future needs.
9. Apply a clear wood finish to a project.
10. Review an article from Fine Woodworking Magazine, write and submit an abstract.

Involve your instructor in the planning of your project. He can help you plan for the proper materials and sequence of work. If the project is already planned go over the plans with your instructor prior to beginning. A word of advice: a simple project well executed will provide a greater sense of accomplishment than a large complex project whose results are a bit “lumpy”.

3. Clean up (10%)

Everyone is expected to clean up after themselves. Please spend 15 minutes each class helping to keep the shop clean and orderly. The instructor views clean-up as a safety issue that all students need to be involved in.

4. Work Habits: including on-time Attendance and Participation (20%)

Developing good work habits is one of the objectives of any vocational course. Just as you would at a job, arrive at class on time, and ready to work. Work together with your classmates, develop a safety attitude and put in a good effort each time you attend class.

Note: Please “check out” with the instructor prior to leaving.

5. Homework (15%)

Homework for this course will consist primarily of textbook reading assignments and questions from the lecture syllabus. The textbook for this course is very readable as well as a

6. Tests and Quizzes (10%)

Each student is required to attend a safety lecture and complete a safety test prior to using the tools and machinery in the C.R. woodshop.

7. Final Assessment (5%)

Students in all classes are expected to attend and participate in the final assessment that is held at the end of each semester. Each student is expected to present their project to the class. Prior arrangements must be made with the instructor if for any reason you are unable to attend the final.

A Non-emergency excuse for absence on final day results in loss of one full course grade.

Final Exam: Monday May 9th, 2022 6:00 - 8:00 pm

Students in all classes are expected to attend and participate in the final assessment at the end of the semester. This includes a project review and written final. Prior arrangements must be made with the instructor if for any reason you are unable to attend the final. **Non-emergency excuse for absence on final day results in loss of one full course grade**

Grading/Evaluation: Grades are part of the teaching and learning process. Keep in mind that you earn grades; I do not “give” them to you. I will assess your work according to how well it meets class objectives, fulfills requirements, meets the assignment rubric, and reflects the academic skills expected of college students. It is your responsibility to understand why you have achieved a certain grade and what steps you can take to maintain or improve your grade. Please feel free to consult with me using email or office visits. However, I will ask that, prior to speaking with me about your grade, you wait at least one day so you may carefully review the assignment and the grading rubric in order to clearly present your concerns to me.

Course Assessment: Student success in CT- 21B will be assessed in the following areas:

<u>Grading Criteria</u>	<u>Available Points</u>		
1. Manipulative Assignments Excellent	= 400	100% - 93%	= A
2. Participation	= 300	92% - 90%	= A-

Student Feedback Policy

Timely feedback is important, I strive to return graded material as soon as possible. Feedback regarding course performance, homework, and manipulative assignments may be discussed during my office hours or by appointment. Your achievements and points earned on projects will be recorded on the Canvas LMS. Homework and written assignments have recommended completion dates that correspond to each relevant lecture. It is highly recommended that woodworking students complete their assignments before the due date listed on Canvas. Written homework may be submitted up to two weeks after the assigned date for full credit. Woodworking requires cumulative learning and practice; therefore, manipulative assignments may be repeated as necessary to improve your score. I will grade and return these projects as quickly as I can.

All feedback is aimed to be delivered in a timely manner and with constructive intent.

GENERAL INFORMATION

Safety: Lab safety and coworker safety are your top priorities as a student woodworker. In addition to machine specific safety rules, always keep in mind the following rules, and work toward developing a **safety attitude**.

- Wear safety glasses at all times.
- Use all the safety guards and other safety devices.
- Have the instructor check your special setups.
- Do not work with any tools or machinery unless the instructor is present.
- Do not work if you are intoxicated or under the influence of drugs.
- Report all accidents and injuries to the instructor immediately.

Student Code of Conduct Standards

All College of the Redwoods students are encouraged to familiarize themselves with, and conform to, college rules and regulations governing personal conduct on all campuses of the district as set forth in the current college catalog.

Electronic Devices

Do not answer your phone or engage in texting, gaming, or surfing the web during class time. Ear buds, wired headphones are prohibited—they are a safety hazard.

General Guidelines

Do not come to class stoned, drunk, or otherwise chemically compromised. If you do, I will ask you to leave. The wood lab is inherently dangerous and is no place to be in an altered state of mind. If you have a medical condition or are using medication prescribed by a physician that may affect your ability to function in the lab please discuss this with me.

COVID-19

It is the intent of CR and your instructors to provide a safe, clean, Covid-free learning environment for you. If you feel that your health may have been compromised in any way, please contact your instructor immediately via email or phone. Please do not attend class if you feel sick or suspect an illness of any type. We must be considerate of the health of those around us.

Face coverings (masks) will be required in the wood lab. Please provide your own face coverings. Make-shift bandanas or loose clothing will not be allowed. Face coverings should have no loose hanging strings or fabric that might become a safety hazard.

It is recommended that you provide your own small, regularly used hand tools such as pencils, tape measure, chisels, etc. The fewer items we share the less likely we are to share our germs. Each student will be provided with a storage tub to secure their tools, personal items, and small projects so that they are not handled by others.

NOTE: You may be withdrawn from this course for non-participation if you miss three class meetings or three manipulative assignments. Your instructor may drop you after the census date and prior to the 10th week of the term for non-participation.

CAVEAT: The schedule and procedures for this course are subject to change in the event of extenuating circumstances.

Academic dishonesty

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](#)) is available on the College of the Redwoods website. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [College Catalog](#) and on the [College of the Redwoods website](#).

Disruptive behavior

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process, a disruptive student may be temporarily removed from class. In addition, the student may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](#)) is available on the College of the Redwoods website. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [College Catalog](#) and on the [College of the Redwoods website](#).

Inclusive Language in the Classroom

College of the Redwoods aspires to create a learning environment in which all people feel comfortable in contributing their perspectives to classroom discussions. It therefore encourages instructors and students to use language that is inclusive and respectful.

Setting Your Preferred Name in Canvas

Students have the ability to have an alternate first name and pronouns to appear in Canvas. Contact [Admissions & Records](#) to request a change to your preferred first name and pronoun. Your Preferred Name will only be listed in Canvas. This does not change your legal name in our records. See the [Student Information Update form](#).
