Evaluation & Grading Policy

Assignment	Points %	Description	Details	Student Learning Outcomes
Weekly Discussions (10) These will be done in class face to face. If you are not in class you have to do these online to make up the discussions	10X3= 30%	There are 10 of these. In class participate or virtually Post each (and every) week and Reply to at least 2 students each week	In class - we will have robust weekly discussions on the topic of module. Students will be responsible for participating in these discussions, both in small groups and in a full class session. If you are not able to attend class, it will be your responsibility to do these online to receive credit.	
Quizzes Due every 2 weeks and based on the readings and lectures.	5x5= 25%	There will be a total of 5 quizzes.	These will mostly be multiple-choice and true and false with some short answers. The quizzes are timed but open book/note and you can usually take them twice and the highest grade will be recorded.	SLO 2: Identify cultural, economic, political, and historical contexts that impact children's development.
Activities Activities on interesting and relevant topics in our curriculum.	2X5= 10%	1 or 2 activities to help you understand the content.	There will be one or two different activities throughout the term. These will be group projects or in class activities look for specific detail details in the canvas shell as these are developed.	

Child Development Timeline Due near end of the class term	1x10= 10%	This is one of the main assignments for the class where you were able to show your understanding of development in multiple domains.	The child development timeline assignment is to gauge your understanding of child development from conception to adolescence. You will be creating a visual representation of the entire spectrum of development for children. There will be samples provided, and guidance given in Canvas.	SLO 1: Describe development of children from conception through adolescence in the physical, social, emotional, and cognitive domains.
Observations Observe children and learn	3X5= 15%	3 observations will be completed either virtually or in person.	These observations will allow you to connect theory with practice and provide an opportunity for you to observe what we're learning this semester.	SLO 3: Apply knowledge of development and major theoretical frameworks to child observations.
Module Presentations Teamwork collaboration and leadership	1x10= 10%	Lead a module of the class as a TA.	Practice teaching the entire class based on the materials provided in Canvas. This can be done in small teams and sign up will be provided in the 1 st weeks of class.	
Total	100%	It all adds up to 100% - see grade calculations below to see what letter grade you will receive.		

Grade Calculations

Your final grade will be based on the total points you have earned throughout the semester. After each assignment is graded your point value will be posted into the Canvas grade book. You will be able to keep track of your total points throughout the semester at the course Canvas site. Grading rubrics are available for each weekly forum.

Points can only be earned by completing the above assignments by the deadline. There will be no extra credit available.

A grade of "C" is considered "satisfactory, a "B" is good and an "A" is excellent.

My grading criteria is based on the belief that meeting the basic assignment criteria is

satisfactory so a "C". To earn a grade higher a student must reach beyond the basics and do more than the basic assignment criteria.

An excellent student demonstrates initiative. The difference between doing what is spelled out in the assignment and thinking about how to deepen the assignment what demonstrates excellence. By taking it to the next level you are demonstrating your advanced leaning and commitment to excelling.

Assignments are due by 11:59 P.M. on the due date given. Late assignments are accepted for up to two weeks after the due date (except assignments due within two weeks of the end of the semester) but will be graded down a full letter grade for each week or portion of a week. After two weeks' assignments, will not be accepted.

Course Grade* 94 to 100 = A

90 to 93.99 = A-

86 to 89.99 = B+

83 to 85.99 = B

80 to 82.99 = B-

76 to 79.99 = C+

70 to 75.99 = C

60 to 69.99 = D*

0 to 59.99 = F

***Please remember that Community Care Licensing and the Commission on Teacher Credentialing only accept grades of "C" or better.** Although a "D" grade is considered passing, it will not meet the requirements to be a fully qualified Title 22 program director or to earn a child development permit.

Students may be dropped from the course at the faculty's discretion if you have failed to log into the course and submit assignments or post into the discussion forums for over two weeks or if the points attained indicate that you are failing the class. Please reach out to me if you have a situation where you are not able to participate on a regular basis due to a documentable reason and I will work with you to find a solution.

AI Use Class Policy

Recent advancements in generative artificial intelligence (AI) have made large language models such as ChatGPT and Google's Bard widely available. Sometimes, using these tools appropriately can help us overcome barriers and allow us to focus on deeper learning. However, overuse of these tools can undermine the development of our critical and creative thinking skills. In addition, AI outputs are often unreliable and frequently subject to bias.

For

these reasons, it is sometimes appropriate and sometimes inappropriate to use generative AI

in the completion of assignments or in discussion posts.

In this class, you must indicate at the start if you used AI to generate content you submitted in an assignment.

(Example- "AI used to write this...")

Also, please remember that **you** are responsible for anything you submit; please

carefully review all AI-generated outputs, screening them for accuracy, bias, appropriateness, and fidelity to your perspective.
