Class Routine & Feedback

EDUC 225 is a free, noncredit course designed to provide an overview of and preparation for high school equivalency tests (GED and HiSET). I encourage you to be an active participant in this class. Academic skills are integral in any course of study as well as your life outside the formal education environment. I will assign a variety of texts that we will read and discuss in class. Please carefully read the texts and complete all written assignments. You are not expected to know all the answers. But I expect you to be honest, including when you honestly do not understand an assignment. I will respond to your questions.

Also, our **Student Development Advisor Jonny Maiullo** is available to meet with you to discuss the HiSET tests as well as continuing with your academic studies and registering for credit classes.
