IB Theatre HL	4	Area C	6		4	Area C1	3	6		5	Area 3A	3

CSU Information:

- These units count toward eligibility for admission. The units may not all apply toward certification of the corresponding GE-Breadth area. See Executive Orders 1036 and 1100 for details.
- Areas of GE Breadth (A1 through E) are defined in EO 1100. Areas of American Institutions (US-1 through US-3) are set forth in Sections IA and IB of EO 1061, and at assist.org.
- Students seeking certification in GE Breadth prior to transfer must have passed the test before this date.
- If a student passes more than one AP exam in calculus or computer science, only one examination may be applied to the baccalaureate.
- Students who pass AP Environmental Science earn 4 units of credit. Tests prior to Fall 2009 may apply to either B1+B3 or B2+B3 of GE Breadth. Fall of 2009 or

later, those credits may only apply to B1+B3.

- If a student passes more than one AP exam in physics, only six units of credit may be applied to the baccalaureate, and only four units of credit may be applied to a certification in GE Breadth.
- If a student passes more than one CLEP test in the same language other than English (e.g., two exams in French), then only one examination may be applied to the baccalaureate. For each test in a language other than English, a passing score of 50 is considered "Level I" and earns six units of baccalaureate credit; the higher score listed for each test is considered "Level II" and earns additional units of credit and placement in Area C2 of GE Breadth, as noted.
- The IB curriculum offers language at various levels for native and non-native speakers. Language B courses are offered at the intermediate level for non-natives.

Language A1 and A2 are advanced courses in literature for native and non-native speakers, respectively.

IGETC Information:

*IB exam may be used in either area regardless of where the certifying CCC's discipline is located.

Note: Credit awarded for IB exams towards admission, GE or major requirements to the UC system will vary and will also depend on each UC campus. For more information, students should visit: <https://admission.universityofcalifornia.edu/admission-requirements/ap-exam-credits/ib-credits.html>.

Disclaimer: This chart provides guidelines for external exams applied as universal system minimums. Each campus in the CSU and UC system will list in their catalog their own additional guidelines to determine how a student's external exams will be applied toward campus and/or major credit.

Advanced Placement credits may be used to satisfy specific AA/AS degree General Education requirements and major requirements at CR, or may be applied as elective units toward the degree. Be advised that when a student transfers to another college or university, each institution evaluates advanced placement units in accordance with its own policies. Therefore, advanced placement units remain intact and do not transfer as College of the Redwoods courses. Furthermore, advanced placement units may not be used to satisfy residency requirements.

Specific course credit is granted to students with qualifying Advanced Placement examination scores when it has been determined that Advanced Placement course work is equivalent to specific College of the Redwoods course work.

To apply for Advanced Placement credit, students must be enrolled in, or have completed, at least 12 units at College of the Redwoods. Advanced Placement Program scores must be sent to the Admissions & Records Office for evaluation.

The tables below list credits awarded by College of the Redwoods for specified Advanced Placement examination scores, and how they are accepted by Transfer GE Patterns. **(BP/AP 4235)**

International Baccalaureate (IB) Credit

College of the Redwoods may award college credit for International Baccalaureate (IB) course completion with scores of 4, 5, 6, or 7, if the course work is compatible with the college's curriculum. Students who have earned credit from an IB exam should not take a comparable college course because transfer credit will not be granted for both. Students should verify with a potential transfer institution the acceptance of these posted scores for IB credit. (See below for International Baccalaureate (IB) Credit Tables).
